

Year 10 2015 – 2016

AQA GCSE Core Chemistry

The fundamentals of Chemistry	C1.1 Atoms and elements	C1.2 Inside atoms PT10C1
	C1.3 Inside compounds	
	September	
	C1.4 Chemical reactions	C1.5 Chemical equations
	The fundamentals of Chemistry assessment	
Rocks & Metals	C1.9 Magnificent metals	C1.10 Stunning steel
	C1.11 Copper	C1.12 Titanium and aluminium PT10C4
	Metals Assessment	
	October ISA – Extracting Metals	
	C1.6 Limestone	C1.7 The lime cycle
	C1.8 Products from limestone	
	Rocks assessment	
Crude oil & fuels	C1.13 Making crude oil useful	C1.14 Looking into oil PT10C2
	C1.15 Burning dilemmas	C1.16 Global warming
	C1.17 Biofuels	
Substances from crude oil	C1.18 Cracking crude oil	C1.19 Polymers PT10C3
	C1.20 Designer polymers	C1.21 More designer polymers
	C1.22 Polymer problems	
	Crude oil, fuels & other useful substances assessment	
Plant oils	C1.23 Making ethanol PT10C5	C1.24 Using plant oils
	C1.25 Oils from fruit and seeds	C1.26 Emulsions PT10C6
	C1.27 Making margarine PT10C7	
	Plant oils assessment	
Earth & its atmosphere	C1.28 Inside the Earth	C1.29 Moving continents PT10C8
	C1.30 Gases in the air	C1.31 Forming the atmosphere
	C1.32 The carbon cycle	
	Earth & its atmosphere assessment
