

21st April 2017

Dear Parent/ Guardian

Year 9 Technology Choices

Students in year 9 focus on two from the four technology options and we now need year 8s to make their choices. Please remember that a majority of students will continue with one of these two as part of their GCSEs and therefore this is an important decision.

Students will be spoken to regarding the different subjects by teaching staff and we have attached a sheet for further details.

We would ask students to rank their top three choices and return the slip below with their choices by Friday 5th May 2017 to Mrs Jennings.

We will do our best to ensure that students receive their first choice and in most cases their second choice, but due to numbers in technology teaching groups, there will be some students that may receive their third choice. Students that miss the deadline will be allocated remaining spaces in the technology groups and therefore may not receive their preferred choices.

If you require further advice or guidance, please contact Mrs Jennings or a member of the technology staff.

Yours sincerely

Mrs R Jennings
Deputy Headteacher
