The Future…

Final Exams

Employment

How are the carbon and water cycles linked to the global climate system?

What are the consequences for people and the environment of our increasing demand for energy?

How does the carbon cycle operate to maintain planetary health?

Topic 6: The Carbon Cycle and Energy Security

Topic 8 (B): Migration, Identity and Sovereignty

What are the threats to national sovereignty in a more globalised world?

What are the impacts of global organisations on managing global issues and conflicts?

How are nation states defined and how have they evolved in a globalising world?

What are the impacts of globalisation on international migration?

Year 13

Topic 7: Superpowers

Topic 5: The Water Cycle and Water Insecurity

What are superpowers and how have they changed over time?

What are the impacts of superpowers on the global economy, political systems and the physical environment?

What spheres of influence are contested by superpowers and what are the implications of this?

What are the processes operating within the hydrological cycle from global to local scale?

What factors influence the hydrological system over short- and long-term timescales?

How does water insecurity occur and why is it becoming such a global issue for the 21st century?

NEA Fieldwork Investigation

- 20% of A-Level
- 70 marks
- 3,000-4,000 words
- Any topic you are interested in and that can be investigated

How is regeneration managed?

Why might regeneration be needed?

An in-depth study of the local place in which you live or study and one contrasting place

Topic 4(A): Regenerating Places

How successful is the management of tectonic hazards and disasters?

Why do some tectonic hazards develop into disasters?

Why are some locations more at risk from tectonic hazards?

Topic 1: Tectonic Processes and Hazards

What are the causes of globalisation and why has it accelerated in recent decades?

What are the impacts of globalisation for countries, different groups of people and cultures and the physical environment?

What are the consequences of globalisation for global development and the physical environment and how should different players respond to its challenges?

Year 12

Topic 3: Globalisation

Topic 2 (B): Coastal Landscapes and Change

Why are coastal landscapes different and what processes cause these differences?

How do characteristic coastal landforms contribute to coastal landscapes?

How do coastal erosion and sea level change alter the physical characteristics of coastlines and increase risks?

How can coastlines be managed to meet the needs of all players?
