

Labour Market information will help students and their parents/carers to understand the job market both locally and nationally and is a helpful tool when choosing GCSE and A Level Options as well college and university courses or Apprenticeships. LMI will also show the different qualifications needed.

Local labour market information and the Emerging Jobs report please follow the following links;

When students are considering their future career options, they should think carefully about their personal skills and knowledge as well as the type of careers they are interested in, what the availability is in that sector and geographically where the jobs are likely to be found.

It is always worth researching useful websites to compare average earnings, what qualifications and skills/experience you will need and future predicted availability of various jobs

All students have access to and are encouraged to use and update their Unifrog account. This is an award winning online careers platform that the school subscribes to and provides students with the best careers guidance and tailored support when choosing their next step after school.

Additionally, the platform helps students successfully apply for these opportunities by writing their personal statement, applications and CVs and guiding them through the process, allowing teachers to give live feedback.

All students will receive information and instructions for use through dedicated PSHE lessons. Following these lessons, parents and carers will be issued with instructions and access information for their own use and to support their child.
