

**Kings Langley School**  
Unlocking Potential for Life

# Student Opportunities

## Issue 10

### **Over 150 apprenticeships available across the UK in 2024!**

We believe that every young person deserves to reach their full potential and our retail apprenticeship programme is designed to do that. The JLR retail apprenticeship programme is an exciting opportunity to work for a prestigious brand whilst acquiring valuable skills, knowledge, and experience in the ever-changing automotive industry.

### **How does the JLR retail apprenticeship programme work?**

The JLR retail apprenticeship programme offers the following:

- Service Technician Apprenticeship (3 year technical role)
- Service Advisor Apprenticeship (1 year commercial role)
- Parts Advisor Apprenticeship (1 year commercial role)

Apprentices will be employed full time in a local retailer and will also be trained by our expert training team at one of our state-of-the-art training academies. Apprentices will also have an experienced workplace mentor to provide further help and support.

Applicants will need to have achieved or be predicted to achieve GCSE grades 9-4 (A-C) or equivalent in English, Maths and two other subjects to apply.

### **Benefits of a JLR retail apprenticeship:**

- A chance to earn while you learn.
- No tuition fees.
- Nationally recognised qualifications and specific JLR certifications.
- Support throughout the learning journey.
- Personal and professional development.
- The first step towards a rewarding career.
- Progression opportunities through our Aspiring Manager's Programme once qualified.

As we gear up for the May Bank Holiday, the team at The Smallpeice Trust are also gearing up for our first Summer of STEM course of 2024!

If you haven't already booked your place on one of our fantastic life changing courses, don't worry, we still have plenty of spaces left across our course programme!

Read on to find out more about our available course opportunities and STEM initiatives...

### SUMMER OF STEM PROGRAMME 2024

#### FUTURE CITIES (Virtual) 29 – 31 July

Students will explore how civil engineers will help shape and develop our future cities to be cleaner, safer, and more energy-efficient places to live and work. From buildings, bridges, water and waste services, and transportation systems to heating and power, civil engineering is all around us.

**This course is open to Year 12 students in England and Wales, S6 in Scotland, and Year 13 in Northern Ireland.** This is a great opportunity for students to experience life at university through virtual sessions all fully funded by The Smallpeice Trust.

**All kit needed to complete this course will be provided in advance.**

[BOOK NOW](#)

#### MODERN STRUCTURES 30 July – 01 August, Kingston University

Embark on an exciting three-day residential course that introduces students to the wonders of sustainable bridge design. Students will receive guidance on planning, analysing, and building their own structures, utilising sustainable materials, and the chance to get hands-on with cutting-edge design and construction technologies.

This course not only offers a full schedule of evening activities but also provides a glimpse into university life and will enhance UCAS applications.

[BOOK NOW](#)

## AGRI-TECH ENGINEERING

### 30 July - 01 August, Harper Adams University

**AGRI-TECH ENGINEERING**  
 30 July - 01 August 2024  
 Harper Adams University

Explore the future of farming and discover how sustainable farming could ensure the UK's long-term food security. Dive into hands-on learning with robots and unleash your creative and programming skills

Open to students currently in Year 10 or equivalent.

**REGISTER NOW**

[www.smallpeicetrust.org.uk](http://www.smallpeicetrust.org.uk)

smallpeice Dare to Imagine

Immerse your child in a world where creativity meets innovation with our Agri-Tech 2024 Residential Course! Embark on a journey of discovery as they delve into the captivating realm of agricultural engineering. Guided by professionals and experts in the field from Harper Adams University, students will be challenged to unlock the process of design, problem-solving, and cutting-edge technology.

From deconstructing the mysteries of robotics, this hands-on, immersive experience will ignite your child's passion for STEM like never before. Join like-minded peers in a dynamic environment where collaboration and ingenuity flourish.

Unleash your potential, expand your horizons, and pave the way for a future filled with endless possibilities. Embrace the challenge, and their imagination soar!

[BOOK NOW](#)

### Engineering Experience (Virtual) - In Partnership with OPITO

#### 20- 23 August

**ENGINEERING EXPERIENCE**  
 20 - 23 August 2023  
 Virtual

Dive into the world of engineering from the comfort of your own home. Explore innovative technologies, solve real-world problems, and connect with fellow STEM enthusiasts.

Open to students currently in Year 8 & 9 in England or equivalent.

**REGISTER NOW**

In partnership with

[www.smallpeicetrust.org.uk](http://www.smallpeicetrust.org.uk) my ENERGY FUTURE powered by smallpeice

Discover the world of STEM through this dynamic, three-day virtual course. In partnership with OPITO, students will be introduced to three unique topics within engineering in which they will engage in practical workshops, explore innovative technology, and connect with industry professionals.

**All kit needed to complete this course will be provided in advance.**

[BOOK NOW](#)

### Engineering Experience (Virtual)

#### 27 - 30 August

**ENGINEERING EXPERIENCE**

**Last Chance To Book!**

Open to students currently in Years 8&9 in England or Equivalent

27 - 30 August 2024  
 Virtual

**REGISTER NOW**

[www.smallpeicetrust.org.uk](http://www.smallpeicetrust.org.uk) smallpeice Dare to Imagine

Students will explore the exciting worlds of cyber security, electrical, and space engineering, work on fun, real-world projects with like-minded young people, and learn skills to enhance their CVs and UCAS applications and be challenged to solve problems faced by real-life engineers.

This 4-day virtual course is open to Year 8-9 students in England or equivalent in Wales, Scotland, and Northern Ireland. This is a great opportunity for students to experience life at university through virtual sessions, developed by The Smallpeice Trust.

**All kit needed to complete this course will be provided in advance.**

[BOOK NOW](#)

## HUMAN HABITAT ON MARS (Virtual)

28 - 30 August

Embark on a cosmic adventure with our three-day course led by top academics from City, University of London!

Led by leading academics from City, University of London, this course invites students to immerse themselves in the captivating realm of space science. From Aeronautical Engineering to Biomedical Engineering and Computer Science, explore the futuristic realm of 2050.

All kit needed to complete this course will be provided in advance.

[BOOK NOW](#)

## Engineering Experience - North 28 - 30 August, University of Manchester

Fuel the curiosity of your budding engineer with Engineering Experience North! This immersive three-day course unlocks the doors to future innovations, offering dynamic days of hands-on problem-solving and real-world project experiences.

In addition to evening social activities, students can embrace the adventure of life away from home, connecting with like-minded peers who share a passion for STEM subjects!

[BOOK NOW](#)

Nepal, known as the 'Roof of the World' is home to the Himalayas and the world's tallest mountain, Mount Everest. But, did you know? Nepal also has the planet's deepest gorge, as well as lush valleys and rushing rivers.

See it for yourself this July, when you join [Rhino Conservation in Nepal for Teenagers](#)

Join forces with other teens aged 15 to 18 from around the world to live and work in the Community Forest of Chitwan National Park.

Running for two weeks from 21 July to 3 August, you'll be on the lookout for the Greater One-horned Rhinoceros.

Plus...

- Collect data to support scientists (the last census counted 694 rhinos in Chitwan National Park!)
- Track footprints and place camera traps to track wildlife
- Perform bird and butterfly surveys
- Develop wildlife education programmes to raise awareness of environmental issues
- Will you be amongst the lucky few to see the elusive Bengal Tiger?!

Our teens conservation project is fully supervised with an emphasis on blending 'hands-on' learning with fun activities too.

Food, accommodation, and activities are all included in the cost of your trip.

**Secure your place today for just £195 deposit... and 12 weeks from now, you could be on the roof of the world!**

Take a look at what you can expect in the video below...

We often get asked 'Where is Nepal?'. Well... It's a landlocked country in South Asia, that sits between India and China.

It's location and unique geography makes it a fascinating country, with a remarkable history, culture, and cuisine.

[Take me to Nepal >](#)

I'm always quite conscious about sharing too many opportunities around this crucial time of exams so I'm going to condense 3 fantastic work experiences we have coming up in the May half term and summer break.

### **Work Experience Opportunities:**

#### **Get into Engineering Work Experience Evening with Mott MacDonald:**

- The university of Law's Business School will be running interactive workshops and mock lectures on all things business, marketing and ESG
- Open to all students in Y10, Y11, 12 & 13 looking to get into Business careers
- UBS and KPMG will also be joining this event to share insights to the corporate world as well as taking students through business simulations

Application Link and more information on this opportunity is here —>

<https://www.surveymonkey.com/r/ULawBusinessVWEX>

All students will receive certificates which can be used on LinkedIn, job and any further education applications.

**Apprenticeships  
in the Royal Signals**

**The Royal Signals** are at the forefront of everything that the Army does, in conflict and in peace. Whether fighting to set up complex computer and radio networks under fire or enabling communications for humanitarian missions, soldiers are dynamic, flexible and able to use their initiative to meet any challenge. They ensure the Army's lines of communication are working effectively and free from security breaches.

**Join our webinar in June  
to find out more**

**For young people interested in applying (and those supporting them)**

Join our webinar on **18th June at 3.30pm** to learn more about the range of apprenticeship opportunities available within the Royal Signals and to hear from inspiring Soldiers about their career journey, what their apprenticeships involve and why they chose an apprenticeship with the Army.

## Britvic Degree Apprenticeship in Digital Marketing

Please see link to new Degree Apprenticeship opportunity from Britvic located in Hemel Hempstead.

[Digital Marketing Degree Apprenticeship \(britvic.com\)](https://britvic.com)

This is a degree apprenticeship opportunity in partnership with London South Bank University enabling you to work while you learn and providing the platform to work towards achieving a digital marketing degree. The programme will last for 4 years which will result in you achieving a BSc (Hons) in Digital Marketing as well as a Digital Marketer Degree Apprenticeship Certificate issued by the IFA (the Institute for Apprenticeships).

**\*\*This is a full-time role which will include one day a week attendance at London South Bank University campus (expenses will be reimbursed).**

Reporting into one of our Senior Brand Managers, we're looking for a passionate and positive individual with a strong commercial head on their shoulders to join a fun, adventurous and collaborative team.

We're thrilled to share some exciting opportunities for teenagers to engage in meaningful travel. Explore our top internships for teens taking place around the globe! Plus, get insights into our sustainability efforts. Dive in now to discover how YOU can travel the world and make a difference!

### Teens: Join a Childcare Project in Cambodia!

If you're aged 15 to 18, then why not combine travel with meaningful volunteer work this summer?

**By volunteering with children in Cambodia, you will:**

Follow a fixed two or three-week itinerary during your summer holiday.

- Support local teachers in kindergartens, schools, and care centres.
- Plan and run engaging lessons, using arts and crafts to teach English.
- Complete classroom and playground renovation work, leaving a lasting impact.
- Become immersed in Cambodian culture, exploring its iconic temples.

You'll share accommodation with other teen travellers in the lively city of Phnom Penh. On the weekends, join unforgettable excursions and take part in social activities.

**By joining this project, you will:**

Gain valuable childcare experience, supercharging your CV.

- Develop personal skills such as leadership and planning.
  - Have an adventure you won't forget, including a trip to the world's largest religious structure, Angkor Wat!
- No prior experience is needed — our dedicated Projects Abroad supervisors will be with you every step of the way.

*Scroll all the way to the bottom of this email to join our free webinar on 4 June at 6pm all about High School Specials...*

**Show me more about Childcare in Cambodia**

**Supercharge your summer: Top internships for teens**

Before you head off to work or further education, why not road-test your chosen path by signing up for an exciting internship abroad?

Our summer projects tailored to 15 to 18-year-olds provide a blend of work experience and cultural immersion.

**Our top internships for teens include:**

**Medicine:** Directly observe doctors on their rounds and complete medical outreaches in underserved communities.

**Conservation:** From the Galapagos giant tortoise to the Rothschild's giraffe, work to protect some of the world's most amazing animals in scenic locations.

**Community:** Support early education and improve learning environments where it's needed the most.

**Human Rights:** Gain experience in law and politics as you research and campaign for social justice in diverse cultural settings.

All internships include 24/7 staff support, safe accommodation, three meals a day, and airport pickup. You'll also enjoy organised social and cultural activities, ensuring a balance of work and exploration.

Read the blog to supercharge your summer and kickstart your career!

### The data's in: Our sustainability impact in 2023

At Projects Abroad, sustainability isn't just a buzzword — it's the foundation of our mission, influencing every aspect of how we operate.

In 2023, we made large strides in [our sustainability efforts](#) and we're excited to share the impact of these actions.

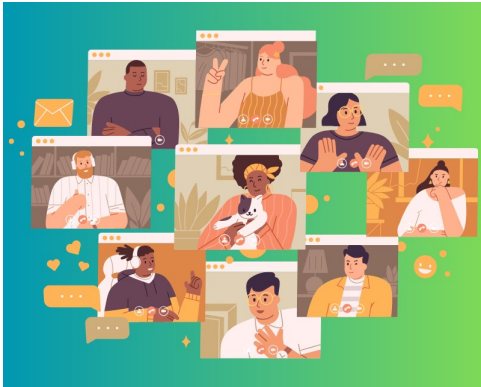

The data's in: it shows that we made a real difference in the pursuit of a cleaner planet. We've planted over **231,124 trees** since 2014, including **178,765 mangroves**.

In 2023, our carbon offset initiatives totalled **987.18 CO2e**. This covers all emissions associated with the delivery of our services, excluding flights.

If you're interested in learning more about our commitment to sustainability, our [Climate Action Plan](#) details what we're doing and how we're making positive progress

[View our Climate Action Plan >](#)

### Free webinar about High School Specials

Our free online webinars are the best place to discover how our projects work and why they're guaranteed to benefit you or your child.

[Our next webinar](#) takes place on **4 June** at **6pm BST**. This one focuses on High School Specials, meaning it's about our bespoke trips for 15 to 18-year-olds.

**We'll cover:**

- Our tailored High School Special projects.
- Last-minute availability for summer 2024.
- Our commitment to unparalleled health and safety.
- How you'll make an impact while crafting lifelong memories!
- The session will begin with a 30-40 minute presentation by Project Expert, Marie Bailly.

Following this, Project Expert, Henry Heard, will lead a live Q&A session, addressing your queries about the Projects Abroad experience.

Join us for an evening that could mark the beginning of an incredible adventure!
